

Virgin TV Anywhere on Android devices

The following devices are fully supported for TV Anywhere. They are able to stream live TV as well as manage TiVo. You can set recordings, change series links, delete recordings, see what's on TV, and use your mobile or tablet as an advanced remote control.

Samsung Galaxy Tab 2 10.1	GT-P5100/5110/5113
Sony Xperia Tablet Z	SGP311/312/321

Manage TiVo:

Manage TiVo means you can set recordings, change series links, delete recordings, see what's on TV, and use your mobile or tablet as an advanced remote control. Some Android devices are not capable of providing an acceptable level of TV streaming quality or content security, and whilst we allow these devices to be used to manage TiVo, we block them from being used to watch TV. The following devices can only be used to manage TiVo, and cannot be used for watching TV.

MOBILES	MODELS
HTC Desire X	(all)
LG G3	D855, F400K/L/S

Barnes & Noble Nook HD	(all)
Barnes & Noble Nook HD+	(all)
LG G Pad 8.3	LG-V500
Samsung Galaxy Tab 3 10.1	GT-P5200/10/20

What you need:

- a compatible Android mobile or tablet with Wi-Fi internet in the UK
- a TiVo® box
- your My Virgin Media username and password
- Android version OS 2.3.3 & above for mobiles and 4.0 & above for tablets.

For security reasons and to protect the rights of our content partners Virgin TV Anywhere is not supported on rooted devices, where unauthorised modifications have been made to the operating system.

You can also manage your TiVo recordings on the TV Anywhere app for iPhone, iPad and iPod touch, and also on computers at virginmedia.com/tvanywhere.

This list of supported devices is updated regularly, so please check back again. Please see next page for other devices that can use TV Anywhere, but are not supported.

Enabled devices

We have recently enabled all Android devices to download and use Virgin TV Anywhere to **manage TiVo**, set recordings, change series links, delete recordings, see what's on TV, and use your mobile or tablet as an advanced remote control.

While we expect them to work, we have not been able to test all of them due to the large number of Android devices available, and we are not able to give support for the TV Anywhere app on these devices. If you do have a problem, you can always head over to the Virgin Media Community at community.virginmedia.com to chat with our other users, or visit our extensive online help at virginmedia.com/help/tvanywhere.

The following devices have also been enabled to **stream live TV** on TV Anywhere.
